

Subject: Visit the redesigned *farmdoc* Management Section

farmdoc Subscriber:

The *farmdoc* Management section has been revised to make it easier to find information. The most recent *Illinois Farm Economics: Facts and Opinions* are listed in the top left of the screen. The new "Data Spotlight" shows graphs of current interest. Presently, the graph shows a history of projected 2009 corn returns relative to soybean returns calculated using Chicago Board of Trade prices each Wednesday. The redesigned "Illinois Farm Management Handbook" contains links to frequently requested farm management information.
